

MODEL 36-NEO

SCALE: 3/4

ANGÉ TILE-EZ SHOWER PAN WITH CURB

Product Features:

- Tile-EZ Shower Receptor (ANSI Z-124.1/Z-124.2) with integrated curb and flange system – Guaranteed not to Leak!
- Floor pre-sloped ¼" per foot to drain opening.
- Tile set directly on pan and curb surfaces with water based thin-set (Tile-EZ Approved). No epoxies or time-sensitive tile setting materials are required.
- Opening for 2" drain provides easy connection with Tile-EZ PVC Glue-In Assembly. (Optional Tile-EZ Compression Assembly available for slab installations and where access to plumbing is limited).
- Round polished chrome strainer (optional round strainer finishes available). Optional square drain covers available with compression drain connection (PVC or brass).
- Tile-EZ Flange System permits use with typical ½" conventional wall cement board.
- No liner, special adhesives, or mud setting required for installation.
